About Center for Disaster Philanthropy

Mission

We leverage the power of philanthropy to mobilize a full range of resources that strengthen the ability of communities to withstand disasters and recover equitably when they occur.

Vision

We envision a world where the impact of disasters is minimized by thoughtful, equitable and responsible recovery for all.

Theory of Change

- Educate and inform. As the expert on all issues regarding the life cycle of disasters, CDP will be active throughout the year, widely disseminating our expertise through our website, the media, webinars and our partners.
- Help donors collaborate. CDP will help funders learn, present opportunities for collaboration and help leverage their collective strength through funds and other activities.
- · Be a thought leader. We will provide leadership in transforming the way government and philanthropy respond to disasters.
- · Coordination. We will help philanthropists coordinate giving across sectors to achieve maximum impact, leverage and timing of gifts.
- Increase effectiveness and impact. We will help to increase the effectiveness of donor dollars given for disasters.
